PROFILE: I am passionate about continuous learning and personal growth, with a strong desire to evolve both as a professional and a team player in the tech industry. Currently a third-year Bachelor's student in Computer Science at Frederick University, I am focused on transitioning into software development. My enthusiasm for embracing new technologies and my collaborative mindset drive me to take on challenges and thrive in dynamic environments.

EMPLOYMENT HISTORY:

- June 2024-Present
 - **Junior Developer & Co-founder TradePal (Pre-launch Startup)**
 - Co-founded and contributed to the development of a Chrome extension that utilizes computer vision to analyze candlestick patterns for financial market insights.
 - Assisted in both front-end and back-end development tasks, enhancing the user interface with HTML, CSS, JavaScript and supporting back-end services with Flask.
 - Supported the implementation of computer vision algorithms to accurately recognize and interpret financial patterns, facilitating real-time data analysis.
 - Engaged in ongoing product design and architectural refinement, ensuring the extension meets high standards of scalability and user engagement in preparation for launch.
- July 2021-Present
 - **Air Controller Cyprus Airforce, Cyprus Government**

EDUCATION:

- September 2022-Present
 - **Bachelor of Computer Science (3rd year), Frederick University**
 - Grade: Current GPA:9.00/10.00
- September 2018-Present
 - **Technical Air Controller, Hellenic Air Force Technical Academy**
 - Grade:8.6/10.00
